Title: Analytical characterization, occurrence, transformation, and removal of the emerging disinfection byproducts halobenzoquinones in water

Author: Wei Wang, Birget Moe, Jinhua Li, Yichao Qian, Qi Zheng, Xing-Fang Li

PII: S0165-9936(16)30014-0

DOI: <http://dx.doi.org/doi: 10.1016/j.trac.2016.03.004>

Reference: TRAC 14695

To appear in: *Trends in Analytical Chemistry*

Please cite this article as: Wei Wang, Birget Moe, Jinhua Li, Yichao Qian, Qi Zheng, Xing-Fang Li, Analytical characterization, occurrence, transformation, and removal of the emerging disinfection byproducts halobenzoquinones in water, *Trends in Analytical Chemistry* (2016), <http://dx.doi.org/doi: 10.1016/j.trac.2016.03.004>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
