

## Accepted Manuscript

Title: Organic materials with hydrostatic pressure induced mechanochromic properties

Author: Lu Wang Kai-Qi Ye Hong-Yu Zhang

PII: S1001-8417(16)30223-6

DOI: <http://dx.doi.org/doi:10.1016/j.ccllet.2016.06.049>

Reference: CCLET 3777

To appear in: *Chinese Chemical Letters*

Received date: 29-4-2016

Revised date: 15-6-2016

Accepted date: 21-6-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Graphical Abstract

Organic materials with hydrostatic pressure induced mechanochromic properties

Lu Wang, Kai-Qi Ye\*, Hong-Yu Zhang\*

*State Key Laboratory of Supramolecular Structure and Materials, College of Chemistry, Jilin University, Changchun 130012, China*

Organic molecules that with mechanoluminescence properties exhibits fluorescence variation under hydrostatic pressure.
