This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Metal binding to nucleic acids – a journey from the beginning.

Abstract

This is a brief summary of my personal involvement in the metal binding nucleic acid story spanning almost 50 years.

Author: Einar Sletten, Department of chemistry, University of Bergen, 5020 Bergen, Norway

Also Corresponding author

Please advice it something is missing.

PS When is the galley proof ready ?

Best regards

Einar Sletten
