Solid State bonding situation of benzyl silanes: Influence of an intramolecular ammonium group

Felix Otte, Stephan G.Koller, Elena Cuellar, Christopher Golz, Carsten Strohmann

PII: S0020-1693(16)30864-7
DOI: <http://dx.doi.org/10.1016/j.ica.2016.11.003>
Reference: ICA 17343

To appear in: *Inorganica Chimica Acta*

Received Date: 25 August 2016
Revised Date: 7 November 2016
Accepted Date: 10 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

Solid State bonding situation of benzyl silanes: Influence of an intramolecular ammonium group
