

Accepted Manuscript

Synthesis of the ferrocenyl analogue of clotrimazole drug

Sonia Pedotti, Martina Ussia, Angela Patti, Nicolò Musso, Vincenza Barresi, Daniele Filippo Condorelli

PII: S0022-328X(16)30560-5

DOI: [10.1016/j.jorganchem.2016.12.009](https://doi.org/10.1016/j.jorganchem.2016.12.009)

Reference: JOM 19732

To appear in: *Journal of Organometallic Chemistry*

Received Date: 7 October 2016

Revised Date: 6 December 2016

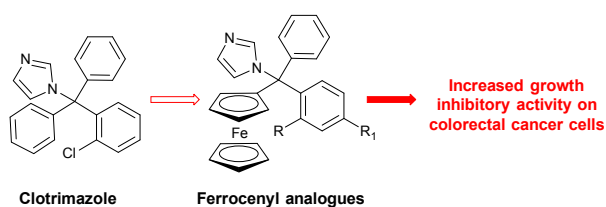

Accepted Date: 8 December 2016

Please cite this article as: S. Pedotti, M. Ussia, A. Patti, N. Musso, V. Barresi, D.F. Condorelli, Synthesis of the ferrocenyl analogue of clotrimazole drug, *Journal of Organometallic Chemistry* (2017), doi: 10.1016/j.jorganchem.2016.12.009.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical abstract

The introduction of a ferrocene unit in the clotrimazole scaffold led to increased biological activity compared to the parent drug
