This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Covalently cyclopalladium(II) complex / reduced-graphene oxide as the effective catalyst for the Suzuki–Miyaura reaction at room temperature

Roghayeh Hashemi Fath, S. Jafar Hoseini\*

*Department of Chemistry, Faculty of Sciences, Yasouj University, Yasouj 7591874831, Iran*

A novel cyclometalated organopalladium(II) complex covalently functionalized graphene oxide nanohybrid has been successfully synthesized and was used as efficient catalyst in the Suzuki–Miyaura coupling reaction.
