Catalytic promiscuity of mononuclear copper(II) complexes in mild conditions: catechol and cyclohexane oxidations

Francine T. Ferre, Jackson A.L.C. Resende, Juliana Shultz, Antonio S. Mangrich, Roberto B. Faria, Alexandre B. Rocha, Marciela Scarpellini

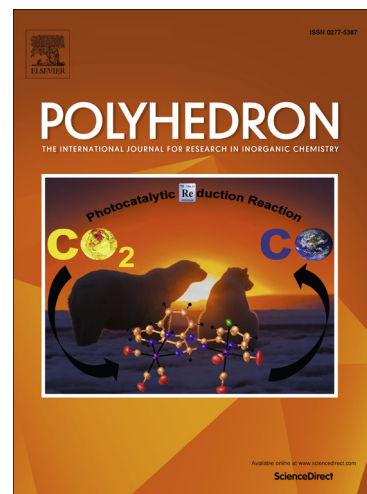

PII: S0277-5387(16)30644-1
DOI: <http://dx.doi.org/10.1016/j.poly.2016.11.045>
Reference: POLY 12353

To appear in: *Polyhedron*

Received Date: 4 August 2016
Revised Date: 8 November 2016
Accepted Date: 30 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
