

Accepted Manuscript

Antimycobacterial activity of novel hydrazide-hydrazone derivatives with 2*H*-chromene and coumarin scaffold

Violina T. Angelova, Violeta Valcheva, Nikolay G. Vassilev, Rosen Buyukliev, Georgi Momekov, Ivan Dimitrov, Luciano Saso, Mirjana Djukic, Boris Shivachev

PII: S0960-894X(16)31236-7
DOI: <http://dx.doi.org/10.1016/j.bmcl.2016.11.071>
Reference: BMCL 24466

To appear in: *Bioorganic & Medicinal Chemistry Letters*

Received Date: 2 September 2016
Revised Date: 19 November 2016
Accepted Date: 23 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
