Title: Assessing cellulose nanofiber production from olive tree pruning residue

Authors: Úrsula Fillat, Bernd Wicklein, Raquel Martín-Sampedro, David Ibarra, Eduardo Ruiz-Hitzky, Concepción Valencia, Andrés Sarrión, Eulogio Castro, María Eugenia Eugenio

PII: S0144-8617(17)31105-0
DOI: <https://doi.org/10.1016/j.carbpol.2017.09.072>
Reference: CARP 12817

To appear in:

Received date: 22-6-2017
Revised date: 20-9-2017
Accepted date: 22-9-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Assessing cellulose nanofiber production from olive tree pruning residue
