Title: Effect of repeat unit structure and molecular mass of lactic acid bacteria hetero-exopolysaccharides on binding to milk proteins

Authors: Johnny Birch, Hörður Kári Harðarson, Sanaullah Khan, Marie-Rose Van Calsteren, Richard Ipsen, Christel Garrigues, Kristoffer Almdal, Maher Abou Hachem, Birte Svensson

PII: S0144-8617(17)30933-5
DOI: <http://dx.doi.org/10.1016/j.carbpol.2017.08.055>
Reference: CARP 12662

To appear in:

Received date: 22-12-2016
Revised date: 3-7-2017
Accepted date: 10-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of repeat unit structure and molecular mass of lactic acid bacteria hetero-exopolysaccharides on binding to milk proteins
