Title: A plant-based reactive ammonium phytate for use as a flame-retardant for cotton fabric

Authors: Yajuan Feng, Yang Zhou, Daikun Li, Shuai He, Fengxiu Zhang, Guangxian Zhang

PII: S0144-8617(17)30766-X
DOI: <http://dx.doi.org/doi:10.1016/j.carbpol.2017.06.129>
Reference: CARP 12517

To appear in:

Received date: 1-4-2017
Revised date: 13-6-2017
Accepted date: 30-6-2017

Please cite this article as: Feng, Yajuan., Zhou, Yang., Li, Daikun., He, Shuai., Zhang, Fengxiu., & Zhang, Guangxian., A plant-based reactive ammonium phytate for use as a flame-retardant for cotton fabric. *Carbohydrate Polymers* <http://dx.doi.org/10.1016/j.carbpol.2017.06.129>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A plant-based reactive ammonium phytate for use as a flame-retardant for cotton fabric

Highlights:

- A plant-based and non-formaldehyde flame retardant was synthesized.
