

## Accepted Manuscript

Title: Amylopectin molecular structure in relation to physicochemical properties of quinoa starch

Authors: Guantian Li, Fan Zhu

PII: S0144-8617(17)30134-0

DOI: <http://dx.doi.org/doi:10.1016/j.carbpol.2017.02.014>

Reference: CARP 11993

To appear in:

Received date: 10-12-2016

Revised date: 25-1-2017

Accepted date: 3-2-2017

Please cite this article as: Li, Guantian., & Zhu, Fan., Amylopectin molecular structure in relation to physicochemical properties of quinoa starch. *Carbohydrate Polymers* <http://dx.doi.org/10.1016/j.carbpol.2017.02.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Amylopectin molecular structure in relation to physicochemical properties of quinoa starch**
