Graphene– gold based nanocomposites applications in cancer diseases; Efficient detection and therapeutic tools

Lina A. Al-Ani, Mohammed A. AlSaadi, Farkaad A. Kadir, Najihah M. Hashim, Nurhidayatullaili M. Julkapli, Wageeh A. Yehye

PII: S0223-5234(17)30558-5

DOI: [10.1016/j.ejmech.2017.07.036](https://doi.org/10.1016/j.ejmech.2017.07.036)

Reference: EJMECH 9599

To appear in: *European Journal of Medicinal Chemistry*

Received Date: 12 February 2017

Revised Date: 7 July 2017

Accepted Date: 20 July 2017

Yehye, Graphene– gold based nanocomposites applications in cancer diseases; Efficient detection and therapeutic tools, *European Journal of Medicinal Chemistry* (2017), doi: 10.1016/j.ejmech.2017.07.036.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphene– Gold Based Nanocomposites Applications in Cancer Diseases; Efficient Detection and Therapeutic Tools

Highlights

- Overview of current nanotechnology applications in biomedical fields are studied.
- Characteristics and cancer applications of graphene-based composites are discussed.
- Advantageous returns of graphene-gold hybridization are deeply explored.
- Cancer applications areas of graphene-gold composites are classified and discussed.
- Up-to-date listing of graphene-gold composites studied in cancer is provided.

Table of Contents

Abstract.....	3
1.0 Introduction.....	3
1.1 Nanotechnology advancements in biomedical applications	3
2.0 Graphene-based nanocomposites.....	6
2.1 Graphene Physiochemical Characteristics.....	7
2.2 Graphene Toxicity and Biocompatibility	8
2.3 Graphene-based nanocomposites applications in cancer diseases.....	9
3.0 Graphene-Gold nanocomposites.....	12
3.1 Synthesis and Functionalization of GN-AuNPs composites	14
3.1.1 Graphene-supported-AuNPs composites.....	15
3.1.1.1 <i>In situ</i> Fabrication:	16
3.1.1.2 <i>Ex situ</i> Fabrication:	17
3.1.2 Graphene wrapped AuNPs	17
4.0 Graphene-Gold composites for cancer applications	18
4.1 Detection and diagnosis of cancer	18
4.1.1 Immuno-sensors:.....	19
