Identification of novel fluorescent probes preventing PrP^{Sc} replication in prion diseases

Ludovica Zaccagnini, Simone Brogi, Margherita Brindisi, Sandra Gemma, Giulia Chemi, Giuseppe Legname, Giuseppe Campiani, Stefania Butini

PII: S0223-5234(16)30935-7

DOI: [10.1016/j.ejmech.2016.10.064](https://doi.org/10.1016/j.ejmech.2016.10.064)

Reference: EJMECH 9029

To appear in: *European Journal of Medicinal Chemistry*

Received Date: 1 August 2016

Revised Date: 12 October 2016

Accepted Date: 31 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

Identification of Novel Fluorescent Probes Preventing PrP^{Sc} Replication in Prion Diseases
