This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Interactions of long-chain homologues of colchicine with tubulin

Ana Marzo-Mas, Pascale Barbier, Gilles Breuzard, Diane Allegro, Eva Falomir, Juan Murga,* Miguel Carda, Vincent Peyrot,* and J. Alberto Marco

Graphical Abstract

Several *N*-acyl colchicine analogues have been synthesized and their cytotoxicities and ability to inhibit microtubule assembly have been measured.
