Aromatase inhibitors and apoptotic inducers: Design, synthesis, anticancer activity and molecular modeling studies of novel phenothiazine derivatives carrying sulfonamide moiety as hybrid molecules

Mostafa M. Ghorab, Mansour S. Alsaid, Nermin Samir, Ghada A. Abdel-Latif, Aiten M. Soliman, Fatma A. Ragab, Dalal A. Abou El Ella

PII: S0223-5234(17)30285-4

DOI: 10.1016/j.ejmech.2017.04.028

Reference: EJMECH 9375

To appear in: European Journal of Medicinal Chemistry

Received Date: 7 February 2017

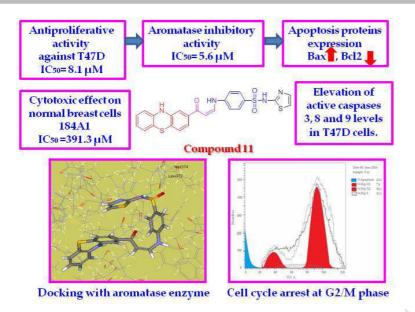

Revised Date: 10 April 2017 Accepted Date: 12 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
