

## Accepted Manuscript

The Effect of a Secondary Process on Crystallization Kinetics – Poly ( $\epsilon$ -caprolactone) Revisited

Kate Phillipson, Michael J. Jenkins, James N. Hay

PII: S0014-3057(16)30632-2

DOI: <http://dx.doi.org/10.1016/j.eurpolymj.2016.09.037>

Reference: EPJ 7508

To appear in: *European Polymer Journal*

Received Date: 23 June 2016

Revised Date: 15 September 2016

Accepted Date: 23 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The Effect of a Secondary Process on Crystallization Kinetics –**

**Poly ( $\epsilon$ -caprolactone) Revisited**
