First Principle study of a potential bioactive molecule with tetrahydroisoquinoline, carbothiomide and adamantane scaffolds

Mona M. Al-Shehri, Abdul-Rahman A. Al-Majed, Haya I. Aljohar, Ali A. El-Emam, Shilendra K. Pathak, Alok K. Sachan, Onkar Prasad, Leena Sinha

PII: S0022-2860(17)30512-4  
DOI: 10.1016/j.molstruc.2017.04.070  
Reference: MOLSTR 23693  
To appear in: *Journal of Molecular Structure*  
Received Date: 15 August 2016  
Revised Date: 06 April 2017  
Accepted Date: 17 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Graphical Abstract**

**First Principle study of a potential bioactive molecule with tetrahydroisoquinoline, carbothiomide and adamantane scaffolds**
