

# Accepted Manuscript

Ionic liquid modification of graphene oxide and its role towards controlling the porosity, and mechanical robustness of polyurethane foam

Titash Mondal, Suman Basak, Anil K. Bhowmick

PII: S0032-3861(17)30841-8

DOI: [10.1016/j.polymer.2017.08.054](https://doi.org/10.1016/j.polymer.2017.08.054)

Reference: JPOL 19956

To appear in: *Polymer*

Received Date: 3 May 2017

Revised Date: 9 August 2017

Accepted Date: 25 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Ionic Liquid Modification of Graphene Oxide and its role towards  
Controlling the Porosity, and Mechanical Robustness of  
Polyurethane Foam**
