Effect of deformation rate on the phase transition process of syndiotactic polypropylene

Xiaoli Sun, Tiantian Gao, Shuyang Wang, Shujing Zhang, Ce Mi, Huihui Li, Shouke Yan

PII: S0032-3861(16)30538-9

DOI: [10.1016/j.polymer.2016.06.052](https://doi.org/10.1016/j.polymer.2016.06.052)

Reference: JPOL 18789

To appear in: *Polymer*

Received Date: 1 April 2016

Revised Date: 17 June 2016

Accepted Date: 19 June 2016

Please cite this article as: Sun X, Gao T, Wang S, Zhang S, Mi C, Li H, Yan S, Effect of deformation rate on the phase transition process of syndiotactic polypropylene, *Polymer* (2016), doi: 10.1016/j.polymer.2016.06.052.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
