Molecular Oxygen as a Regulator of Primary Chain Length of Branched Polymers Formed in 3D Radical Polymerization. Oxidative Polymerization of Styrene

Sergei A. Kurochkin, Mikhail A. Silant'ev, Evgeniya O. Perepelitsyna, Vyacheslav P. Grachev

PII: S0032-3861(12)00974-3

DOI: [10.1016/j.polymer.2012.11.026](https://doi.org/10.1016/j.polymer.2012.11.026)

Reference: JPOL 15802

To appear in: *Polymer*

Received Date: 2 August 2012

Revised Date: 6 November 2012

Accepted Date: 6 November 2012

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
