Loading rate dependence of failure strength as predictor for the long-term performance of thermoplastic polymeric products

Marc J.W. Kanters, Tim B. van Erp, Martin van Drongelen, Tom A.P. Engels, Leon E. Govaert

PII: S0142-9418(16)31440-4

DOI: [10.1016/j.polymertesting.2017.01.026](https://doi.org/10.1016/j.polymertesting.2017.01.026)

Reference: POTE 4912

To appear in: *Polymer Testing*

Received Date: 20 December 2016

Accepted Date: 29 January 2017

Please cite this article as: M.J.W. Kanters, T.B. van Erp, M. van Drongelen, T.A.P. Engels, L.E. Govaert, Loading rate dependence of failure strength as predictor for the long-term performance of thermoplastic polymeric products, *Polymer Testing* (2017), doi: 10.1016/j.polymertesting.2017.01.026.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Property Modelling

**Loading rate dependence of failure strength as predictor for the long-term performance of thermoplastic polymeric products**
