

Accepted Manuscript

Recent advances in the synthesis of biologically active spirooxindoles

Maria M.M. Santos

PII: S0040-4020(14)01168-5

DOI: [10.1016/j.tet.2014.08.005](https://doi.org/10.1016/j.tet.2014.08.005)

Reference: TET 25905

To appear in: *Tetrahedron*

Received Date: 3 March 2014

Revised Date: 25 July 2014

Accepted Date: 4 August 2014

Please cite this article as: Santos MMM, Recent advances in the synthesis of biologically active spirooxindoles, *Tetrahedron* (2014), doi: 10.1016/j.tet.2014.08.005.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

Recent advances in the synthesis of biologically active spirooxindoles

Maria M. M. Santos

Instituto de Investigação do Medicamento (iMed.Ulisboa), Faculdade de Farmácia, Universidade de Lisboa

Leave this area blank for abstract info.

MI-888
MDM2 inhibitor

NITD609
antimalarial

Rhynchophylline

Spirotryprostatin A
