Title: Logarithmic contact time dependence of adhesion force and its dominant role among the effects of AFM experimental parameters under low humidity

Authors: Tianmao Lai, Yonggang Meng

PII: S0169-4332(17)31255-2
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.04.220>
Reference: APSUSC 35901

To appear in: *APSUSC*

Received date: 13-3-2017
Revised date: 13-4-2017
Accepted date: 26-4-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Logarithmic contact time dependence of adhesion force and its dominant role
among the effects of AFM experimental parameters under low humidity**
