Title: Enhanced hydrogen storage on Li-doped defective graphene with B substitution: A DFT study

Authors: Yanan Zhou, Wei Chu, Fangli Jing, Jian Zheng, Wenjing Sun, Ying Xue

PII: S0169-4332(17)30718-3
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.03.057>
Reference: APSUSC 35433

To appear in: *APSUSC*

Received date: 6-10-2016
Revised date: 25-2-2017
Accepted date: 6-3-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Enhanced hydrogen storage on Li-doped defective graphene with B substitution: A DFT study
