

## Accepted Manuscript

Title: The evolution of chemical nature on U-0.79 wt. %Ti surface during vacuum annealing

Author: Peng Shi Lizhu Luo Yawen Zhao Xiaoguo Fu  
Bingyun Ao Bin Bai Xiaolin Wang

PII: S0169-4332(15)00322-0  
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2015.02.027>  
Reference: APSUSC 29706

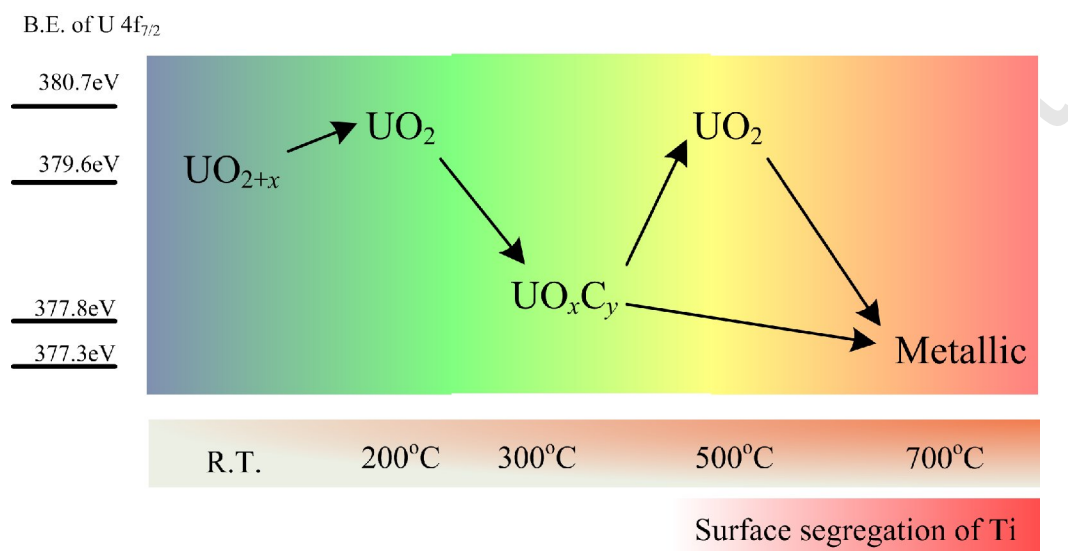

To appear in: *APSUSC*

Received date: 9-12-2012  
Revised date: 2-2-2015  
Accepted date: 4-2-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Graphical Abstract

The evolution of the U-0.79Ti alloy surface character during vacuum annealing.
