Title: Enhanced Biofouling Resistance of Polyethersulfone Membrane Surface Modified with Capsaicin Derivative and Itaconic Acid

Author: Jian Wang Xueli Gao Qun Wang Haijing Sun
Xiaojuan Wang Congjie Gao

PII: S0169-4332(15)01908-X
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2015.08.095>
Reference: APSUSC 31042

To appear in: *APSUSC*

Received date: 15-6-2015
Revised date: 11-8-2015
Accepted date: 12-8-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Enhanced Biofouling Resistance of Polyethersulfone Membrane Surface Modified with Capsaicin Derivative and Itaconic Acid
