

Accepted Manuscript

Title: Origin and chemical composition of the amorphous material from the intergrain pores of self-assembled cubic ZnS:Mn nanocrystals

Authors: Mariana Stefan, Ioana Dorina Vlaicu, Leona Cristina Nistor, Daniela Ghica, Sergiu Vasile Nistor

PII: S0169-4332(17)32173-6
 DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.07.172>
 Reference: APSUSC 36706

To appear in: *APSUSC*

Received date: 12-6-2017
Revised date: 18-7-2017
Accepted date: 19-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Origin and chemical composition of the amorphous material from the intergrain pores of self-assembled cubic ZnS:Mn nanocrystals
