Title: Improving crystallization and electron mobility of indium tin oxide by carbon dioxide and hydrogen dual-step plasma treatment

Authors: Fengyou Wang, Rongchi Du, Qianshang Ren, Changchun Wei, Ying Zhao, Xiaodan Zhang

PII: S0169-4332(17)32183-9
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.07.182>
Reference: APSUSC 36716

To appear in: *APSUSC*

Received date: 20-4-2017
Revised date: 19-6-2017
Accepted date: 20-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Improving crystallization and electron mobility of indium tin oxide by carbon dioxide and hydrogen dual-step plasma treatment
