Title: Fabricating a regular hexagonal lattice structure by interference pattern of six femtosecond laser beams

Authors: Yoshiki Nakata, Masataka Yoshida, Kazuhito Osawa, Noriaki Miyanaga

PII: S0169-4332(17)30931-5
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.03.236>
Reference: APSUSC 35612

To appear in: *APSUSC*

Received date: 29-10-2016
Revised date: 24-3-2017
Accepted date: 26-3-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fabricating a regular hexagonal lattice structure by interference pattern of six femtosecond laser beams

Yoshiki Nakata*, Masataka Yoshida, Kazuhito Osawa, and Noriaki
Miyanaga
