Title: Reduced water vapor transmission rates of low-temperature solution-processed metal oxide barrier films via ultraviolet annealing

Authors: Seonuk Park, Yong Jin Jeong, Yonghwa Baek, Lae Ho Kim, Jin Hyuk Jang, Yebyeol Kim, Tae Kyu An, Sooji Nam, Se Hyun Kim, Jaeyoung Jang, Chan Eon Park

PII: S0169-4332(17)31118-2
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.04.100>
Reference: APSUSC 35781

To appear in: *APSUSC*

Received date: 6-2-2017
Revised date: 12-4-2017
Accepted date: 13-4-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Reduced Water Vapor Transmission Rates of Low-Temperature Solution-Processed Metal Oxide Barrier Films *via* Ultraviolet Annealing
