Title: Investigation into the morphology and structure of magnetic bentonite nanocomposites with their catalytic activity

Authors: Dong Wan, Guanghua Wang, Wenbing Li, Xiaobi Wei

PII: S0169-4332(17)30965-0
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2017.03.265>
Reference: APSUSC 35641

To appear in: *APSUSC*

Received date: 25-1-2017
Revised date: 29-3-2017
Accepted date: 30-3-2017

Please cite this article as: Dong Wan, Guanghua Wang, Wenbing Li, Xiaobi Wei, Investigation into the morphology and structure of magnetic bentonite nanocomposites with their catalytic activity, Applied Surface Science <http://dx.doi.org/10.1016/j.apsusc.2017.03.265>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Investigation into the morphology and structure of magnetic bentonite nanocomposites with their catalytic activity

Dong Wan, Guanghua Wang, Wenbing Li, Xiaobi Wei
