This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Rapid fabrication of superhydrophobic Al/Fe₂O₃ nanothermite film with excellent energy-release characteristics and long-term storage stability

Xiang Ke, Xiang Zhou*, Gaozi Hao, Lei Xiao, Jie Liu, and Wei Jiang*
