

## Accepted Manuscript

Title: Enhanced hydrothermal stability of Cu-ZSM-5 catalyst via surface modification in the selective catalytic reduction of NO with NH<sub>3</sub>

Author: Tao Zhang Juan Shi Jian Liu Daxi Wang Zhen Zhao Kai Cheng Jianmei Li

PII: S0169-4332(16)30485-8  
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2016.03.049>  
Reference: APSUSC 32815

To appear in: *APSUSC*

Received date: 7-1-2016  
Revised date: 17-2-2016  
Accepted date: 5-3-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Enhanced hydrothermal stability of Cu-ZSM-5 catalyst via  
surface modification in the selective catalytic reduction of NO  
with NH<sub>3</sub>**
