Title: Dual-shell hollow polyaniline/sulfur-core/polyaniline composites improving the capacity and cycle performance of lithium –sulfur batteries

Author: Yanling An Pan Wei Meiqiang Fan Da Chen Haichao Chen QiangJian Ju Guanglei Tian Kangying Shu

PII: S0169-4332(16)30515-3
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2016.03.070>
Reference: APSUSC 32836

To appear in: *APSUSC*

Received date: 31-12-2015
Revised date: 14-2-2016
Accepted date: 7-3-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Dual-shell hollow polyaniline/sulfur-core/polyaniline composites
improving the capacity and cycle performance of lithium –sulfur
batteries**
