Title: Influence of microstructure and elemental partitioning on pitting corrosion resistance of duplex stainless steel welding joints

Author: Zhiqiang Zhang Hongyang Jing Lianyong Xu
Yongdian Han Lei Zhao Jianli Zhang

PII: S0169-4332(16)32163-8
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2016.10.047>
Reference: APSUSC 34141

To appear in: *APSUSC*

Received date: 14-9-2016
Revised date: 6-10-2016
Accepted date: 7-10-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Influence of microstructure and elemental partitioning on pitting corrosion
resistance of duplex stainless steel welding joints**
