Title: Physical vapor deposited titanium thin films for biomedical applications: reproducibility of nanoscale surface roughness and microbial adhesion properties

Author: Claudia Lüdecke Jörg Bossert Martin Roth Klaus D. Jandt

PII: S0169-4332(13)00952-5
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2013.05.030>
Reference: APSUSC 25669

To appear in: *APSUSC*

Received date: 24-7-2012
Revised date: 6-5-2013
Accepted date: 10-5-2013

Please cite this article as: C. Lüdecke, J. Bossert, M. Roth, K.D. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Physical vapor deposited titanium thin films for biomedical applications: reproducibility**
2 **of nanoscale surface roughness and microbial adhesion properties**

3

4 Running title: TiO thin films for biomedical applications
