Title: Synthesis of Nanoporous Carbon Nitride using Calcium Carbonate as Templates with Enhanced Visible-light Photocatalytic Activity

Author: Daimei Chen Jinjin Yang Hao Ding

PII: S0169-4332(16)31402-7
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2016.06.173>
Reference: APSUSC 33543

To appear in: *APSUSC*

Received date: 24-5-2016
Revised date: 25-6-2016
Accepted date: 27-6-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Synthesis of Nanoporous Carbon Nitride using Calcium Carbonate as Templates with Enhanced Visible-light Photocatalytic Activity
