Title: Synthesis and characterization of magnetically recyclable Ag nanoparticles immobilized on Fe₃O₄@C nanospheres with catalytic activity

Author: Wei-hong Li Xiu-ping Yue Chang-sheng Guo Jia-pei
Lv Si-si Liu Yuan Zhang Jian Xu

PII: S0169-4332(15)00249-4
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2015.01.207>
Reference: APSUSC 29644

To appear in: *APSUSC*

Received date: 30-12-2014
Revised date: 23-1-2015
Accepted date: 26-1-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

2 $\text{Fe}_3\text{O}_4@\text{C}$ nanospheres with catalytic activity
