Title: Co-modification of F⁻ and Fe(III) ions as a facile strategy towards effective separation of photogenerated electrons and holes

Author: Xuefei Wang Rui Yu Ping Wang Feng Chen Huogen Yu

PII: S0169-4332(15)01174-5
DOI: <http://dx.doi.org/doi:10.1016/j.apsusc.2015.05.056>
Reference: APSUSC 30381

To appear in: *APSUSC*

Received date: 11-2-2015
Revised date: 8-5-2015
Accepted date: 10-5-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Co-modification of F⁻ and Fe(III) ions as a facile strategy
towards effective separation of photogenerated electrons and
holes**
