Research paper

A molecular simulation study of the auto-protolysis of ammonia as a function of temperature

Dirk Zahn

PII: S0009-2614(17)30529-8

DOI: <http://dx.doi.org/10.1016/j.cplett.2017.06.002>

Reference: CPLETT 34863

To appear in: *Chemical Physics Letters*

Received Date: 27 March 2017

Revised Date: 9 May 2017

Accepted Date: 1 June 2017

Please cite this article as: D. Zahn, A molecular simulation study of the auto-protolysis of ammonia as a function of temperature, *Chemical Physics Letters* (2017), doi: <http://dx.doi.org/10.1016/j.cplett.2017.06.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A molecular simulation study of the auto-protolysis of  
ammonia as a function of temperature**
