Research paper

Leveraging Symmetry to Predict Self-Assembly of Multiple Polymers

Milo M. Lin

PII: S0009-2614(17)30449-9

DOI: <http://dx.doi.org/10.1016/j.cplett.2017.05.011>

Reference: CPLETT 34800

To appear in: *Chemical Physics Letters*

Received Date: 7 February 2017

Accepted Date: 3 May 2017

Please cite this article as: M.M. Lin, Leveraging Symmetry to Predict Self-Assembly of Multiple Polymers, *Chemical Physics Letters* (2017), doi: <http://dx.doi.org/10.1016/j.cplett.2017.05.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

*Revised Manuscript*

2017.04.29

Included are changes made in the proofs.

**Leveraging Symmetry to Predict  
Self-Assembly of Multiple Polymers**
