Cholinergic inhibitors replace thioflavin-T from acetylcholinesterase binding pocket: A potential fluorescence based molecular switch

Mullah Muhaiminul Islam, Sivaprasad Mitra

PII: S0009-2614(16)30763-1

DOI: <http://dx.doi.org/10.1016/j.cplett.2016.09.079>

Reference: CPLETT 34220

To appear in: *Chemical Physics Letters*

Received Date: 12 July 2016

Revised Date: 26 September 2016

Accepted Date: 30 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
