Title: Isotropic polarizability of ozone from double-hybrid approximations

Author: Mojtaba Alipour

PII: S0009-2614(15)00925-2  
DOI: <http://dx.doi.org/doi:10.1016/j.cplett.2015.11.054>  
Reference: CPLETT 33458

To appear in:

Received date: 28-10-2015  
Revised date: 26-11-2015  
Accepted date: 29-11-2015

Please cite this article as: M. Alipour, Isotropic polarizability of ozone from double-hybrid approximations, *Chem. Phys. Lett.* (2015), <http://dx.doi.org/10.1016/j.cplett.2015.11.054>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Research Highlights:**

- ▶ Performance of double-hybrid schemes is assessed for polarizability of ozone.
- ▶ Parameterized and parameter-free double-hybrids are explored.
- ▶ Best performing approximations are proposed for polarizability calculations.
