Effect of an external electric field on the C–N cleavage reactions in nitromethane and triaminotrinitrobenzene

Li Lv, Yuan Wei, Zhiqiang Tao, Fang Yang, Deyin Wu, Mingli Yang

PII: S2210-271X(17)30371-7

DOI: <http://dx.doi.org/10.1016/j.comptc.2017.08.017>

Reference: COMPTC 2598

To appear in: *Computational & Theoretical Chemistry*

Received Date: 24 February 2017

Revised Date: 15 August 2017

Accepted Date: 17 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
