Theoretical Assessment of TD-DFT Applied to a Ferrocene-based Complex

Mauricio Yáñez-S, Sergio A. Moya, César Zúñiga, Gloria Cárdenas-Jirón

PII: S2210-271X(17)30382-1

DOI: <http://dx.doi.org/10.1016/j.comptc.2017.08.032>

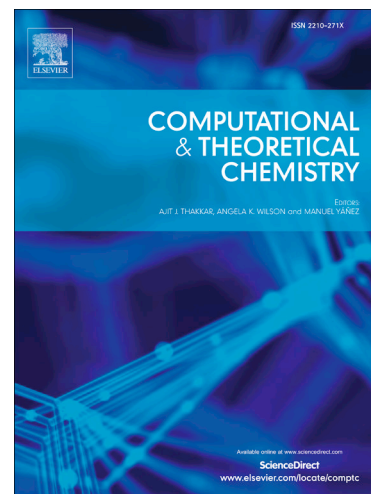

Reference: COMPTC 2613

To appear in: *Computational & Theoretical Chemistry*

Received Date: 18 June 2017

Revised Date: 10 August 2017

Accepted Date: 25 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Theoretical Assessment of TD-DFT Applied to a Ferrocene-based Complex
