Borophene nanosheet molecular device for detection of ethanol – A first-principles study

V. Nagarajan, R. Chandiramouli

PII: S2210-271X(17)30088-9
DOI: <http://dx.doi.org/10.1016/j.comptc.2017.02.023>
Reference: COMPTC 2419

To appear in: *Computational & Theoretical Chemistry*

Received Date: 26 January 2017
Revised Date: 21 February 2017
Accepted Date: 21 February 2017

Please cite this article as: V. Nagarajan, R. Chandiramouli, Borophene nanosheet molecular device for detection of ethanol – A first-principles study, *Computational & Theoretical Chemistry* (2017), doi: <http://dx.doi.org/10.1016/j.comptc.2017.02.023>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Borophene nanosheet molecular device for detection of ethanol - a first-
principles study**
