

## Accepted Manuscript

Fragment molecular orbital (FMO) calculations on DNA by a scaled third-order Møller-Plesset perturbation (MP2.5) scheme

Haruka Yamada, Yuji Mochizuki, Kaori Fukuzawa, Yoshio Okiyama, Yuto Komeiji

PII: S2210-271X(16)30494-7  
DOI: <http://dx.doi.org/10.1016/j.comptc.2016.12.008>  
Reference: COMPTC 2325

To appear in: *Computational & Theoretical Chemistry*

Received Date: 20 October 2016  
Revised Date: 5 December 2016  
Accepted Date: 5 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
