

## Author's Accepted Manuscript

Relationship between  $\text{Eu}^{3+}$  substitution sites and photoluminescence properties of  $\text{SrIn}_2\text{O}_4:\text{Eu}^{3+}$  spinel phosphors

Yipu Kang, Bui Thuy, Yohei Shimokawa, Tomokatsu Hayakawa, Satoshi Sakaida, Lei Miao, Sakae Tanemura, Sawao Honda, Yuji Iwamoto

PII: S0022-2313(15)00488-3  
DOI: <http://dx.doi.org/10.1016/j.jlumin.2015.08.055>  
Reference: LUMIN13561

To appear in: *Journal of Luminescence*

Received date: 19 May 2015  
Revised date: 12 August 2015  
Accepted date: 27 August 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
