

Author's Accepted Manuscript

MATHEMATICAL ASPECTS OF GROUND STATE TUNNELING MODELS IN LUMINESCENCE MATERIALS

Vasilis Pagonis, George Kitis

PII: S0022-2313(15)00429-9
DOI: <http://dx.doi.org/10.1016/j.jlumin.2015.07.049>
Reference: LUMIN13499

To appear in: *Journal of Luminescence*

Received date: 17 March 2015
Revised date: 29 July 2015
Accepted date: 30 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
